**RESPONSE TO ADVISORY ACTION DATED JANUARY 17, 2007**

Applicant notes with appreciation Examiner's acknowledgement that the prior rejections under 35 U.S.C. §112, second paragraph have been met by the amendments reflected in the presently pending claims.

Examiner continues the rejections of the presently pending claims under 35 U.S.C. §103(a), citing *Green* (U.S. 5,687,324) in view of *Bianchini, Jr. et al* (U.S. 5,287,346) ("*Bianchini*") previously made of record by Applicant and newly cited *Hui and Arthurs* "A Broadband Packet Switch for Integrated Transport", IEEE, 1987 ("*Hui*"). Examiner does not assert that there is a new ground for rejection presented by the application of *Bianchini* or *Hui*, nor does Applicant agree that *Bianchini* or *Hui* have been properly applied as a basis for any rejection of the claims.

Applicant has amended all of the independent claims 1, 12, and 17 and dependent claims 5, 8, 19, and 22 to more clearly specify the operation of the non-recirculating sort trap stage of the application as suggested by the Examiner in the Advisory Action. Specifically, the independent claims have been amended to state that cells may be discarded by the non-recirculating sort-trap stage. Amendments to dependent claims 3, 13-14, and 23-25 were also made to add clarity and to correct cross references.

Applicant does not agree that *Green's* discussion of the background of the art teaches a non-recirculating sort trap stage as claimed by Applicant. However, in an effort to place this case into a condition for allowance, or to simplify the issues for an appeal, Applicant has

amended all of the independent and the dependent claims as specified above to more precisely specify the operation of the non-recirculating sort trap stage.

### CONCLUSION

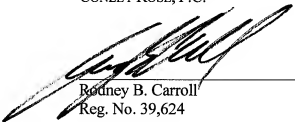

Consideration of the foregoing amendments and remarks, reconsideration of the application, and withdrawal of the rejections is respectfully requested by Applicant. No new matter is introduced by way of the amendment. It is believed that each ground of rejection raised in the Final Office Action dated October 30, 2006 and Advisory Action dated January 12, 2007 has been fully addressed.
